

BRACE FOR THE NEXT BIG THING: DIGITAL ISSUES MANAGEMENT

No matter who you are — big, small, business, non-profit — the world in which you operate is increasingly defined by major, rapid shifts you can't always control. With a combination of policy and media content, realtime intelligence, and powerful workflow tools, FiscalNote helps you anticipate change, mitigate risks, and seize new opportunities.

FiscalNote solutions enable every part of the issues management process :

DISCOVER

- Monitor or gain awareness and insights from stakeholders and public policy
- Access news links, bills, rules, social media profiles, and documents

PLAN

- Assess position, priority, and impact (financial, reputational, etc)
- Leverage analytics to prioritize stakeholders and identify risks or opportunities

EXECUTE

- Manage stakeholder relations, meetings, events, resources, and more
- Execute campaigns that engage stakeholders and advance key positions

MEASURE

- Generate powerful reports to measure your effectiveness by issue
- Export graphs and visuals to better demonstrate your outcomes

Many of the issues you care about require robust understanding of data, context, and public sentiment. That's why FiscalNote has developed a wide range of resources that enhance your situational awareness as you engage on the issues important to you.

- Over 35 million regulatory and legislative documents across 21 countries
- Contact information and social media profiles for 78,000 global elected officials
- AI-driven recommendations to identify influencers and stakeholders
- Proprietary data ingestion engine that harvests data from any site in any language
